Replacement Model

M5900 Portable Data Terminal

Available... July 2006

Big business performance. Small business value.

With big business functionality at a small business price, the AML M5900 portable data terminal can help streamline and improve business operations, while keeping IT costs low - no matter the size of the business.

Durable, easy to use, and packed with big functionality, the AML M5900 portable data terminal is an ideal solution for everyday data collection applications - including inventory/stock control, asset tracking, shipping/receiving, document tracking, and more.

Helps your business do more, for less.

M5900 Features & Benefits

Powerful - High capacity, rechargeable Lithium-Ion battery ensures extended operation.

Fast - 200 MHz processor enables rapid access to programs and stored data.

Reliable - Backup battery protects memory when main battery is discharged or removed.

Extensive - Standard 32MB RAM/16MB ROM Flash provides ample storage capacity.

Functional - Includes an easy to read graphical backlit LCD display, 55-key multi-functional keypad, RS-232 & USB communications ports.

Pre-loaded with several common data collection applications. Also includes a powerful Program Generator for custom application development.

Flexible - Available with integrated Laser, LR Laser, Advanced LR Laser, or LR CCD scanner.

Durable - Designed for everyday, all day use.

Easy to Use - Ships complete with all the software and accessories you need to quickly and easily put the M5900 to work for your business.
